About LVI Associates

SECURING LEADING ENGINEERING & INFRASTRUCTURE TALENT

LVI Associates is a specialist talent partner for the engineering and infrastructure sectors.

Engineering and infrastructure play critical roles in shaping the future of our communities. LVI Associates supports industry-leading organisations to secure professionals who make a profound difference in our everyday lives. From ensuring that the public has access to everything from clean drinking water and reliable electricity, to safe housing and roads for self-driving cars, we secure top engineering and infrastructure talent with speed, global reach, and accuracy.

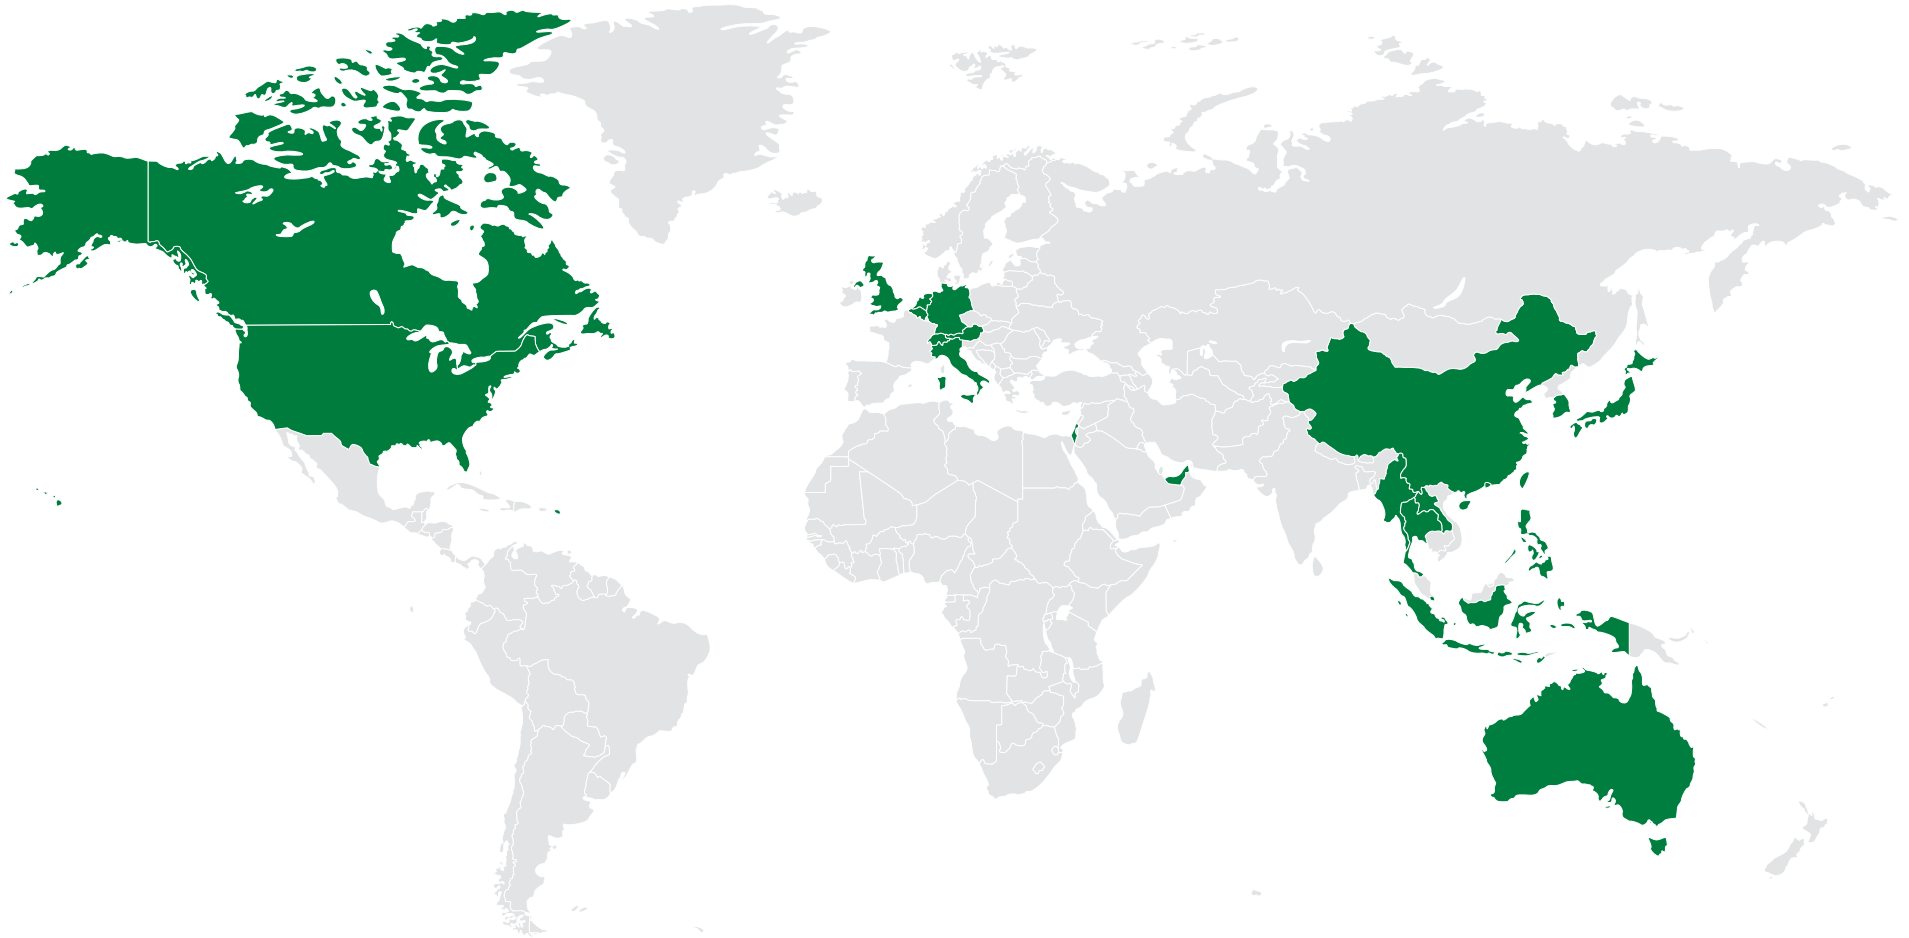

LVI Associates provides permanent, contract, and multi-hire talent solutions from our global hubs around the world. We help attract high-performing professionals and match them with your business objectives, ensuring you have the right team in place to meet your company's goals.

As a trusted talent partner, we work with you to align your business objectives with a robust talent acquisition plan, while providing relevant market research and insights.

LVI Testimonials

CLIENTS

LVI Associates continue to support our staffing needs. Having worked with over a dozen or more agencies in my career, what really separates LVI Associates from the others is how carefully they listen to this specific skill sets and experience that are required for the each role. Rather than submitting a variety of candidate CV's in the hopes that they hit the right mark, LVI Associates are experts in identifying high caliber professionals through an accurate search process - precisely matching candidates to the job description requirements. They clearly put in the time and effort required to identify the best match, and the talent specialists are well trained within the specific industry niche they serve.

 Edward Tierney
VP Global Engineering
Gradiant

LVI Associates have helped us on three key positions. In a short timeframe, they contacted an array of industry-leading candidates, arranged all the interviews, and provided important feedback throughout the process. By having a talent partner on board, we saved a huge amount of time and money. I look forward to working with LVI Associates again in the future.

CANDIDATES

LVI Associates are one of the talent specialists that stand out in the market in my eyes. Even though we are based in different countries, they understand the Data Centre market and were able to secure a candidate for our company that fits perfectly. Throughout the whole talent acquisition process, they kept us in the loop and shared tips on the right interview questions to ask.

If you are looking to hire a senior position in the Data Centres field, LVI Associates is your go-to.

I couldn't recommend LVI Associates enough. Not only do they have access to a wide network of national and international sector professionals, but they have a strong understanding of the industry they operate in and the talent available in that market. They put our best interests first and followed a speedy, accurate, and precise talent acquisition process.
